

Web Version:

- 1) Create an account on the DormPal website using your university affiliated email.
- 2) Fill out the basic profile information fields, including the personality type. The Myers Brigg personality type test will be linked into the site for the user can self-report after taking it.
- 3) Browse around the site to look for roommates. You can use the filtering option and search features to make this easier.
- 4) You can like the profile by clicking on the heart in the upper left of the tile to add it into the favorites page.
- 5) You can chat with a specific person by clicking on the “Let’s Chat” buttons located on the bottom of their tile.

App Version:

- 1) Download the app.
- 2) Create an account on the DormPal app.
- 3) Enter your school-approved email address to verify that you are a student at xyz university.
- 4) Enter your personal information (i.e. name, year, major, etc.).
- 5) Take the Myers-Briggs type indicator assessment.
- 6) Answer the subsequent questions about your lifestyle preferences, personal interests, etc.
- 7) Once all questions have been answered the user will be taken to the home page of the application where they will have the option to choose what to do next, they could:
 - a) Scroll down the list of user profile tiles which are personalized and recommended in order of most compatible to least compatible. Users will then be able to click into each profile to view, favorite a profile, chat with a profile, or block profiles.
 - b) Go to the chat feature and communicate with potential roommates.
 - c) Search for specific criteria that other profiles may have.
 - d) Choose selective filters to further refine their potential roommate suggestions.
 - e) Select the GPT function to ask for specific recommendations on potential roommate recommendations.
 - f) Go to the settings bar and change their user data.
- 8) Users can then choose to exit the app or create a group with a desired roommate for the next academic year.
